

EMPLOYEE SUCCESS STORY

Vito Greco

Production & Engineering Mgr.

Vito Greco joined Quantic Wenzel in October 2000 and has since carved out a remarkable career. Currently serving as Production and Engineering Manager, Vito's role involves overseeing a team of engineers, planners, and technicians to ensure precise production according to customer specifications. Vito's journey began as an Electronics Engineering Technician and evolved through Sales Engineer and Program Manager roles. Vito resonates with Quantic Wenzel's "Visionary," "Smart," and "Expert" attributes, qualities that have enabled him to excel in his role. One of Vito's standout projects was the support of an electronic warfare program for an aerospace application, where meeting delivery dates amidst sourcing challenges showcased his abilities. In the past year, he has successfully managed his team, addressing their training and equipment needs amid rapid company growth. Outside of work, Vito enjoys quality time with his dogs, dreams of vacationing in Fiji, and pursues hobbies like live music, travel, mountain biking, and indulging his foodie side with a love for Texas BBQ. Vito's journey embodies dedication, growth, and excellence. His commitment to our company's vision and continuous pursuit of excellence makes him an indispensable member of our team.

“

Working at Quantic Wenzel has been such a rewarding journey for me. I'm thankful for the friends I've made, the culture we've built, and for the cutting-edge technologies we've delivered to our customers. With the guidance of exceptional mentors, dedication to constant improvement, and a commitment to delivering excellence, I've learned that the sky's the limit in this dynamic company.
